## BACKEND DEVELOPER / DATA ENGINEER

Passionate about data, and backend development. My aim is to leverage my expertise and technical skills to analyze, interpret, and derive valuable insights from extensive datasets. I focus on crafting innovative and efficient solutions that drive data-driven decision-making processes. Furthermore, I actively seek to strengthen my teamwork abilities by collaborating with colleagues from diverse backgrounds, contributing to project success comprehensively. I firmly believe in the significance of knowledge sharing and am always eager to learn from others while offering my expertise whenever possible.

## WORK EXPERIENCE

Data Analysis Engineer, Go Bravo/Resuelve tu Deuda

Remote, Colombia, 05/2023 - Present

- Developing ML model APIs using Protocol Buffers (protobuf).
- Processing, analyzing, and interpreting data to derive valuable insights and make informed decisions, based on reports and dashboards.
